

MAKING THE RIGHT DECISION

So, you think you have found a great deal on *used* equipment for your lab?
THINK AGAIN!!

NEW

GUARANTEED CLEANLINESS OF EQUIPMENT

We use all food grade materials for manufacturing.

RELIABILITY OF OUR MACHINES

The components we use meet the highest specifications for quality and reliability. We only supply OEM genuine parts from the factory.

LOWER OVERALL COSTS

New equipment comes with Microfluidics Certified Technical support and comprehensive warranty. Maintenance training by our factory certified field service engineers is also given.

VS.

SAFETY RISK WITH CONTAMINATED PARTS

Potent active pharmaceutical ingredients (APIs) and live bacteria such as E.Coli could be present, even if the equipment has been 'cleaned'.

HIDDEN DAMAGE TO CRITICAL COMPONENTS

If abrasive materials or foam have been previously processed, internal parts may be damaged and will need costly replacements to achieve desired results.

USED

HIGHER OVERALL COSTS

With zero technical support, training or warranty, overall cost of ownership is typically much higher when used equipment is purchased.

X

**PROCESSING PRODUCT FOR CONSUMPTION ON USED EQUIPMENT IS DANGEROUS.
MICROFLUIDICS WILL NOT SUPPORT USED EQUIPMENT FOR CONSUMER PRODUCTS WITHOUT REPLACING ALL
PRODUCT CONTACT PARTS WITH NEW PARTS.**
